

Toshiba Satellite M55-S135 Keyboard Replacement

This guide will demonstrate how to replace the keyboard of a Toshiba Satellite M55-S135

Written By: klismann Evora

INTRODUCTION

We will be teaching you how to remove a Toshiba Satellite M55-S135 keyboard

TOOLS:

- [Spudger](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Keyboard

- You start off with the laptop open facing you.
- ⓘ Make sure to tilt the screen a little back as to less likely damage the keyboard upon removal

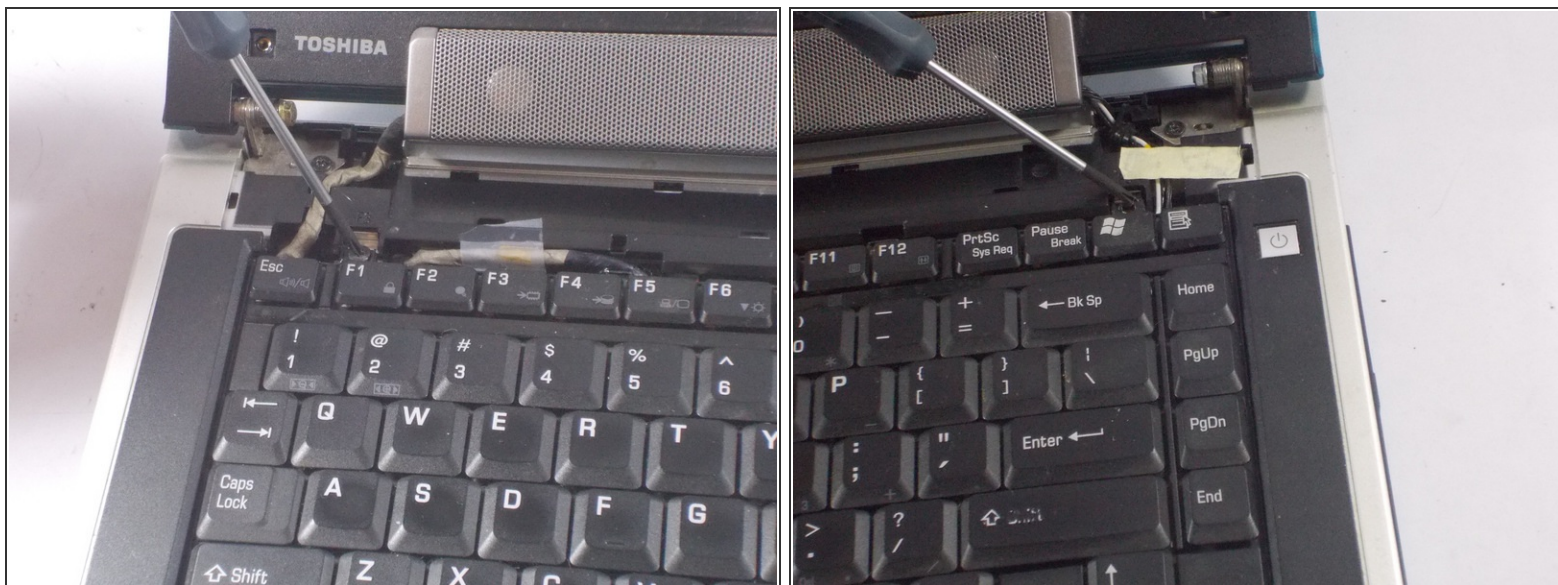

Step 2

- Begin by locating the gaps that are between the speakers and the top row of keys on the keyboard.
- Next take a flat head screw driver and slowly pry off the piece.

⚠ Make sure to pry slowly as to not damage the laptop

Step 3

- Remove both 6.72mm screws with the Phillips 00 screwdriver.

Step 4

- Take the Flathead screwdriver and begin removing the keyboard starting on one side.

ⓘ This step must also be done slowly as to not damage the laptop keys.

Step 5

- Upon removal there should be a keyboard cable located near the mouse pad.
- Make sure to remove the cable as to not damage it.

To reassemble your device, follow these instructions in reverse order.
